Kenneth F. Florek, Reg. No. 33,173

Initially, applicant notes that Claims 1-16 are pending in this application. Notwithstanding, the Examiner has required restriction in the present application based on the finding that more than one invention is set forth in the claims.

More specifically, the Examiner set forth two (2) inventions as follows:

Group I: Claims 1-6 drawn to network user administration, classified in class 709, subclass 223.

Group II: Claims 7-16 drawn a wireless format conversion, with geographic and positional considerations, classified in class 455, subclass 414.4.

In response, applicant herein elects the invention recited in Group I, corresponding to Claims 1-6. The withdrawal of Claims 7-16 is being made without prejudice to their assertion in one or more duly filed divisional patent applications.
